2. Paste control measures are done on regular interval.

VI-D

Best Practices

➤ **Objectives-**

1. Best practices is method of techniques that has been generally accepted as superior to any alternatives because it produces result that are superior to those achieved by other means or because it has become standard way of doing things .
2. Our goal is to support your efforts in every face of graduate **Ayurvedic education** from recruiting the best students through preparing the next generation of profession.

➤ **Context :-**

- 1. New student orientation**
- 2. Building & maintaining communication**
- 3. Mentoring & Advising**
- 4. Evaluation of Academic Progress**
- 5. Professional Development**
- 6. Mental & Physical Health**

➤ **Description of the Practice**

1. New student orientation:-

New student orientation is an essential step in acclimating graduate students to the college environment so that students become familiar with campus resources & be successful in their program.

2. Building & maintaining communication:-

Effective socialization of graduate students into the intellectual community of the degree program is one of the most significant factors influencing students persistent in education. Graduate education occurs through sharing. Creating new knowledge in formal & informed the situation both within & outside the class room or lab, and an effective community is developed through activities that foster collaboration & facilitated interaction.

Example:-

1. 10 minutes query session after each lecture.
2. Weekly group discussion.

3. Mentoring & Advising :-

1. Weekly surprise test & presentation are given to students which help them to express their thinking & presenting ability towards the subject each program help the students to recognize their lacunae in learning which are then mentored & advised by teachers who help them to achieve their greatest potential.

2. Special counseling sessions for students who are lagging behind in learning process.

4. Evaluation of Academic Progress :-

The projective of the practice is to identify ways in which faculty can more effectively help students make progress in their graduate studies by routinely documenting & sharing their result with each student.

The exams taken are :-

1. Internal Examination.
2. Practical Examination.
3. Random Test Examination.

5. Professional Development :-

For professional development of students guest lecture are arranged, many speakers like **advisors**, who have career experience & share their knowledge supporter.

6. Mental & Physical Health :-

1. For mental health of students **yoga & mediation** classes are arranged .
2. For physical health sports activity like holly ball, badminton etc, sports are arranged for student on regular basis.

➤ **IF- (Student performance & learning outcomes) :-**

1. Program Outcomes:-

Program outcomes are statements that what learners will know and be able to do when they are graduates from courses.

In the part there was only one option available for brashly and that was to start's one's own practice. However, today there are many promising opportunities available for BAMS graduates. The areas which are available for a BAMS graduated to build a career successfully can be brodly classified in to following five categories.

1. Clinical practice.
2. Academic.
3. Research.
4. Managements and administration.
5. Drug Manytactaring

2. Course Outcomes:-

Course outcomes are described as what learners will be able to do at the end of course.

Example:-

Ist Year students at the end of Ist Year student shall learn.
